

IQ Test for YOU

Which people on this planet have been Group B for the last 75 years?

<i>Group A</i>	<i>Group B</i>
Violently expelled local people to create their own state, having used terror tactics against the British “Look up Stern Gangs”	Having lived in peace for centuries on their land, were in 1948 removed from their homeland by force “ Look up Nakba”
Wealthy and powerful in comparison, illegally occupying more land and building new settlements for themselves and building concrete prison wall enclaves for others.	Poor and helpless as lives and homes are constantly destroyed yet try in vain to resist an increasing occupation.
An army of Tanks, Helicopter Gunships, F16 Jets, Ballistic Missiles to force a people with attacks from Air, Sea and Land to a life under brutal occupation, misery and death.	Some in desperation use stones, and a minority use pointless ineffectual rockets and some copy unacceptable tactics mirroring what they have endured, which is all condemned.
Supported by a Superpower that bequeaths billions of dollars in aid and military hardware to them, along with some other nations, that support them politically, economically and in their mainstream media. Why that is poses another IQ Question.	As a displaced helpless group, they exert no influence on the world which does not act beyond words, despite UN resolutions that accept their legal right to their homeland and freedom from occupation.
Their past fate of generations before is tragic, at the hands of others and justifies our sympathy, but not for them to inflict another Apartheid, War crimes and Genocide as a response to a resistance to occupation.	Try to resist the occupation from the giant military might, but many die a terrible death, others live a terrible existence and the injustice and catastrophe continues.

Which people on this planet have been Group B for the last 75 years?

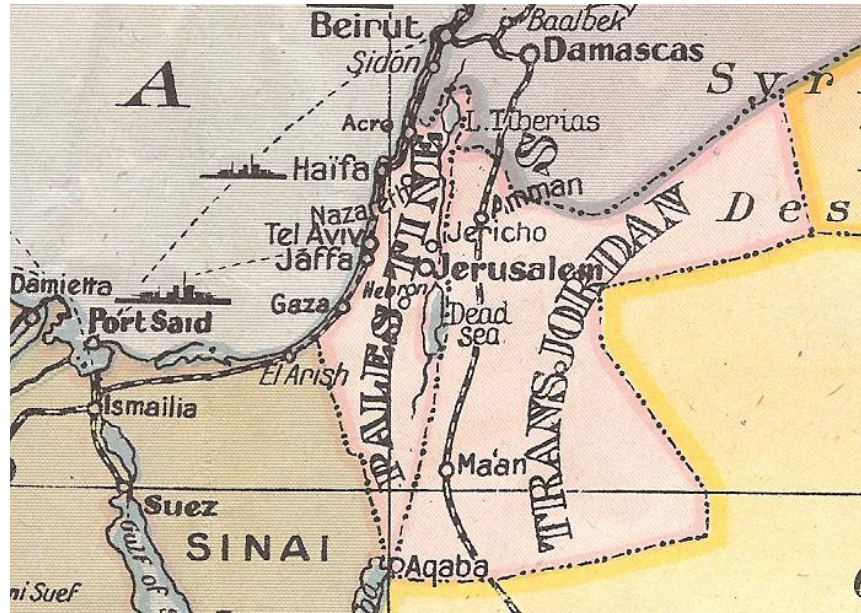

Answer on next page

ANSWER lies in the Map

Discuss it with a friend

International Boundaries of 1938 (Strategic Map from Britain)

Put yourself in the fate of Group B for just a moment and imagine how you would feel, being evicted from your land and your homes destroyed. Britain went to war the last time an invasion was attempted.

Support a reasonable and viable homeland to Group B, if only 50% of what they had before the occupation and one without the divisive Settlements and Apartheid reality created by Group A

Atrocities pervade this planet but we must act wherever injustice exists.

Speak up even softly and support British sense of fair play to end suffering and put humane into humanity.

Please encourage friends and colleagues to support justice for all, for Group A and Group B
